

Notice of Change to Surcharge-free ATM Network

To provide convenience when you need cash on the run using your Credit Union debit card with Rewards, your Credit Union supports over 70,000 surcharge free network ATMs so you'll have access to an ATM when and where you need one.

Beginning on February 1, 2009, we will no longer support the CU24 surcharge free ATM network. The surcharge free networks we continue to support have significant overlap with the CU24 network, so this change should have minimal to no impact.

To locate a surcharge-free ATM, visit our website and click on the "find branches & ATMs" link at the top of the page, or look for the following surcharge free network logos on the ATM:

Remember, your debit card provides convenience when shopping as well. Plus you'll earn Rewards points every time you make signature-based purchases—just swipe your card and select the "credit" option.
