

NOTICE OF CHANGE TO SURCHARGE-FREE ATM NETWORK

The Credit Union supports over 70,000 surcharge-free network ATMs so you'll have access to a surcharge-free ATM when and where you need one.

Beginning April 15, 2010, the Pulse network will no longer be supported. The surcharge-free networks we will continue to support have significant overlap with the Pulse network, so this change should have minimal to no impact.

To locate a surcharge-free ATM, visit our website and click on the "Free ATMs & Branches" link at the top of the page, or look for the following surcharge free network logos on the ATM:

Remember, your ATM/Debit card provides convenience as well as Rewards points every time you make a purchase—just swipe your card and select the "credit" option.
